Due to the increasing complexity of all health care programs it has become necessary for our office to place the responsibility of knowing the requirements of your particular insurance policy on you. This includes knowing which facilities can be used for x-rays, laboratory, hospitalization, out-patient surgery or referral to another physician.

- You *must* have your co-pay at the time of service or your appointment will be rescheduled.
- You *must* show your insurance card at *each* visit.

As there are many insurance plans, all with their individual requirements, it is the patient's responsibility to understand the requirements and limitations of the plan.

Note: All laboratory specimens will be sent to our regular laboratory providers unless you, the patient, advise us the name of the particular laboratory contracted by your insurance company.

I have read and understand the above information
